

Validation is reported twice - in header and for each field

How to setup a form to report validation errors additionally next to each field which failed the validation

Here is the form:

t *

t1 *

Save

This behavior is managed through the parameter on ConfiForms Registrations Control

Edit 'ConfiForms (Form View) Registrations Control' Macro

CSS styles, separated by semicolon

Applied on 'Registration' button when Dialog mode is on

Visible only to groups/users

Comma-separated list of group names/usernames this field is visible to. Leave blank if there are no restrictions

Hide control when stored data matches this criteria

Same syntax expected as in filters

☒ Errors will be reported also with a message shown next to the field

Preview

Visible only in PREVIEW

✓ Configuration helper for ListViews, TableViews, CardViews, PlainView, CleanView, CalendarViews and Registration Control macros

Show

t *

t1 *

+

Select macro

Save Cancel

Which results in this behavior

- 't' is required to be set
- 't1' is required to be set

t *

t' is required to be set

t1 *

't1' is required to be set

+

Save

Here is the storage format for the configuration
