Using TableViewMerger to show fields in one column

Have a form with 2 columns: field1 and field2

Showing the data in a table with TableView

Field1	Field2
Hello	World
Connecting the	world

Showing the data in a table with TableViewMerger and have field1 and field2 fields in one column

Field2 and Field2 together
Hello World
Connecting the world

Storage format for the demo (form name changed to f1)

```
