

Linking assets to Jira issues

With AssetForms for Jira you can link (or associate) assets with Jira issues.

This is done by adding

- Jira issue
- Jira issue (multi-select)

field types into your asset type.

For example

Fields

You can re-arrange fields order by using drag & drop

Name*

Referenced Jira issue

Field properties

Field name*

refjiraissue

Name of the field to be used when writing conditions / filters

Field label*

Referenced Jira issue

Label is shown next the the field control

Is required

☐

When the field is set as required, the field's label will have the "*" sign added and the form will not accept empty values for this field

Field description

Description is an explanatory text shown under the field

CSS styles

CSS styles to apply on field

Field types

Add Field

And when creating an asset and selecting the Jira issue key (or multiple) you can associate this asset with selected Jira issue

Asset

Asset type:

VEH - Vehicles

Name*

Porsche Taycan review

Referenced Jira issue

size

FORMS-18 Review how size is ...

☒

ABI-6 Show item's SIZE when ...

Save

Cancel

Browse to issue in Jira and go to a issue detailed view

Associated assets are visible on the Jira issue view on the right

Linked AssetForms Assets

Open Linked AssetForms Assets

→

And clicking to open this view you will see linked assets

←

Linked AssetForms Assets

×

VEH-1 Porsche Taycan review

This is how you can associate assets with Jira issues.

And of course! You can easily modify the linked asset right from the presented panel!
