

Consuming CSV file from attachment and showing the contents as table and in a chart

We have a simple CSV file attached to this page, the structure and the contents is as follows:

Product A	35000
Product B	12000
Product C	2000

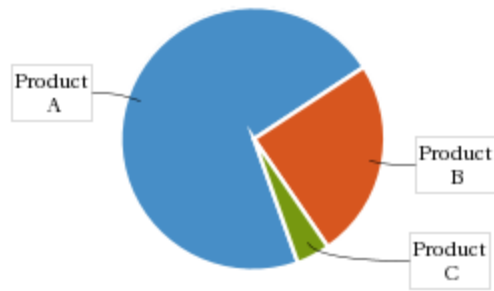

And we would like to show it as a table and show the contents as a pie chart

as Table (using ConfiDoc TableView)

Product name	Sales total
Product A	35000
Product B	12000
Product C	2000

```

    </p>
  </ac:rich-text-body>
</ac:structured-macro>
```

Show the same table as a pie chart using Confluence standard Chart macro (ConfiDoc generates a compatible table to be used within this macro)

■ Product A (35,000 - 71%)
 ■ Product B (12,000 - 24%) ■ Product C (2,000 - 4%)
