Simple form with show and hide field with custom 2 column mode design

Simple form with just 2 columns, a dropdown and textarea, and the rule to show textarea when a user made a choice in a dropdown and that is greater than 2

On the screenshot below you can see how the Registrations Control macro looks like in the editor

And the form dialog itself, online demo

Register

All the customizations, to change the border widths and to make them invisible on the table which renders fields in 2 column mode have been done using the Confluence source editor, adding CSS styles

Storage format for this simple 2 column form
