

Sticky box - custom user macro with absolute position

Simple user macro

```
## Sticky box macro by Vertuna LLC
## @param Width:title=Width|type=string|required=true|desc=Width in pixels (numeric)
## @param Height:title=Height|type=string|required=true|desc=Height in pixels (numeric)
## @param Top:title=Top|type=string|required=true|desc=Top in pixels (numeric)
## @param Left:title=Left|type=string|required=true|desc=Left in pixels (numeric)
<div style="position:absolute; z-index:9999; width:${paramWidth}px; height:${paramHeight}px;top:${paramTop}px;
left:${paramLeft}px">
$body
</div>
```

This macro uses "Rendered mode"

Definition of User Macro

- Macro Body
- ☐ No macro body
- Processing
- ☐ Escaped
- ☐ Unrendered

You should use this option for bodies that are processed within the template before being output. Ensure that HTML is ultimately output by the template.

- ☒ Rendered

The body will be rendered so most HTML entered will be passed to the template unmodified but Confluence specific mark up such as macro definitions will be rendered.
