

Attachments list

Simple user macro to shows page's attachments with metadata (ID - title - version)

Online demo

- **42927084** - *attachments-list.png* (Version - 1)

Definition of User Macro

Macro Body ☒ No macro body

Processing ☐ Escaped

☐ Unrendered

You should use this option for bodies that are processed within the template before being output. Ensure that HTML is ultimately output by the template.

☐ Rendered

The body will be rendered so most HTML entered will be passed to the template unmodified but Confluence specific mark up such as macro definitions will be rendered.

Template*

```
#set ($attachments = $action.page.attachments)
<ul>
  #foreach($a in $attachments )
    <li><strong>$a.id</strong> - <i>$a.title</i> (Version - $a.version)</li>
  #end
</ul>
```

Source code

```
## @noparams
#set ($attachments = $action.page.attachments)
<ul>
  #foreach($a in $attachments )
    <li><strong>$a.id</strong> - <i>$a.title</i> (Version - $a.version)</li>
  #end
</ul>
```
