

Advanced aggregations and calculations with TableView Merger

This should be a detailed tutorial one day... but as we have very hectic times, I will quickly put a cookbook page showing the techniques which can be used with TableView Merger

We use here:

- CONCAT function to concatenate values from 2 fields together and show it in one column
- We count (group by) by one field but use another as calculation input. See example below (which groups by "status" field which has value 1 and uses [entry.timeestimate] field value for calculations)

```
Draft: ([count_status=1]*[entry.timeestimate])
```

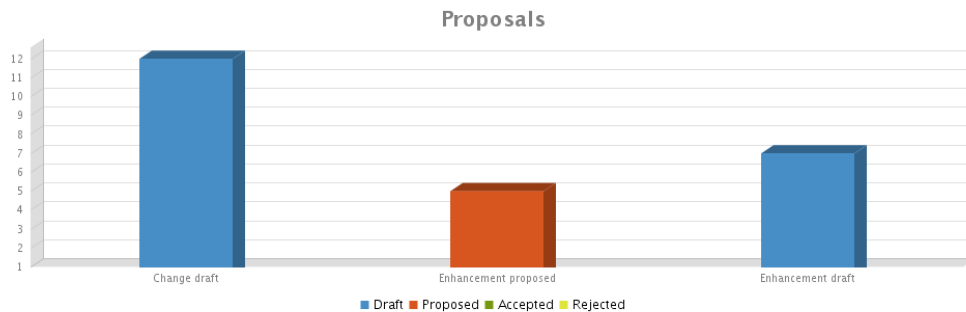

- Important detail on how to group the rows (as we can only group by field values, not by expressions. That is why a table used to draw a chart has 2 fields: proposalType and status to enable correct grouping)
- Chart does not use the columns used for grouping, see source code below to see how it is configured

The end result is something like this:

[Register](#) [Form: Proposals](#)

with concat func

Proposal type	Status	Proposal and Status	Draft	Proposed	Accepted	Rejected
Change	draft	Change draft	12	0	0	0
Enhancement	proposed	Enhancement proposed	0	5	0	0
Enhancement	draft	Enhancement draft	7	0	0	0

And that is build from the following dataset

[Register](#) [Form: Proposals](#)

Time estimate	Proposal type	Status	
7	Enhancement	draft	Edit Delete
3	Enhancement	proposed	Edit Delete
2	Enhancement	proposed	Edit Delete
12	Change	draft	Edit Delete

So, we have a form

Proposals

Time estimate *

in days

Proposal type *

Status *

+

Save

Close

And the solution uses groping by 2 fields, proposalType and status, have these fields also as TableView Merger Field column defined like this

```
Proposal and Status:(CONCAT("[entry.proposalType.label] ","[entry.status.label]"))
```

Which reads as: create a column by concatenating the values of 2 fields (we take labels from dropdowns here)

This field (expression) is used to have a field in the table and use it as input for the chart macro

More details coming soon... If you need help please send a message to use using our contact form
